DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Claims 1-6

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Applicant has amended claim 1 to include the limitation of a non-woven fabric comprising spunbond thermally bonded polypropylene filaments which thermally bonds, individual ones of said filaments to each other and consolidates said fabric. It is the position of the Examiner that the prior art of record fails to teach a polypropylene fabric comprising spunbond thermally bonded polypropylene filaments, wherein said fabric contains as a melt additive a blend of stearamide and erucamide, where the amount of stearamide is greater than the amount of erucamide. An updated art search did not produce any new substantial art for which to base a rejection and presently there is no motivation to combine references to form an obvious type rejection. Thus, claims 1-6 are found allowable.
